

Missing You

**Missing you, missing you
Your smile, your touch,
The little things I love so much
My world fell apart, broke more than my heart,
Left me standing still, missing you.**

**Missing you, missing you,
In time, they say,
The pain will simply wither away,
So when will the years, dry all my tears?
When will I stop missing you?**

**Life goes on it's true but the comfort's cold
Part of me won't be consoled.
Memory may be the fool of time,
But a little push and I'm...**

**Missing you, missing you,
You left your trace
in everything I see your face.
You're still in my heart,
 (sometimes late at night you're)
still in my dreams,
 (after all this time)
I'm still standing still, missing you.**
